MANAGEMENT DISCUSSION

MADISON ENTERPRISES CORP.

(the "Company")

MANAGEMENT DISCUSSION FOR THE NINE MONTHS AND QUARTER ENDED JULY 31, 2002

During the three months ended July 31, 2002, the Company entered into agreements whereby it has the option to acquire up to a 75% interest in the Lewis Property, a contiguous block of 381 unpatented and 8 patented claims located in Lander County covering some 20 square miles in the Battle Mountain District of central Nevada. Also during the period, the Company also announced that it had, subject to regulatory approval, arranged a brokered private placement of 2,400,000 units at a price of \$0.25 per unit to generate gross proceeds of \$600,000. This placement was subsequently withdrawn due to a fall in the market price for the Company's shares, but the Company hopes to carry out a financing to fund property payments and exploration of the Lewis Property sometime during the quarter ending October 31, 2002.

OPERATIONS AND FINANCIAL CONDITION

At July 31, 2002, the Company had total assets of \$41,656,065 as compared with \$41,372,266 at October 31, 2001. This increase is due principally to the sale of share capital. Working capital at July 31, 2002 decreased to \$758,800 from working capital of \$1,098,898 at October 31, 2001 due to investments in resource properties. The Company's largest cash outflow in the three and nine month periods ended July 31, 2002 was as a result of investments in resource properties of \$379,304 and \$656,127, respectively. During the three month period ended July 31, 2001, the Company's largest cash outflow resulted from investment in resource properties of \$224,320. During the nine month period ended July 31, 2001, the Company's largest cash outflow resulted from investments in resource properties of \$1,249,789.

During the three and nine month periods ended July 31, 2002, the Company recorded interest income of \$4,204 and \$13,596, respectively and a foreign exchange gain of \$4,883 and a foreign exchange loss of \$6,632, respectively. General and administrative expenses for the nine month period ended July 31, 2002 were \$526,859, up from \$472,936 for the nine month period ended July 31, 2001 due principally to increased rent, public relations costs and wages. During the nine month period ended July 31, 2002, the Company incurred expenses of \$195,668 with parties not at arm's length to the Company. These expenses are comprised of legal fees paid to directors of the Company or its Papua New Guinea subsidiaries totalling \$94,174 and office costs incurred on behalf of companies with directors in common totalling \$101,494 pursuant to cost sharing arrangements with such companies. During the nine month period ended July 31, 2001, the Company incurred expenses of \$118,644 with parties not at arm's length to the Company. These expenses are comprised of legal fees paid to directors of the Company or its Papua New

Guinea subsidiaries totalling \$97,402 and office costs incurred on behalf of companies with directors in common totalling \$21,242 pursuant to cost sharing arrangements with such companies. The net loss for the nine month period ended July 31, 2002 was \$556,851 or \$0.01 per share as compared with a net loss for the nine month period ended July 31, 2001 of \$2,660,962, or \$0.06 per share.

Expenses for the three month period ended July 31, 2002 were \$142,793, down from \$176,637 for the three month period ended July 31, 2001 due principally to property examination costs expenses in the prior period. In connection with this placement, the Company paid a finder's fee of 8% of the gross proceeds payable half in cash and half in units (\$32,000 and 320,000 units) and issued brokers warrants entitling the purchase of up to 900,000 shares at a price of \$0.12 and 10,000 shares at a price of \$0.14 per share, in both cases until September 21, 2003.

LIQUIDITY AND CAPITAL RESOURCES

In management's view, given the nature of the Company's activities, which consist of the acquisition, exploration, exploration management and sale of mineral properties, the most meaningful and material financial information concerning the Company relates to its current liquidity and capital resources. The Company does not currently own or have an interest in any mineral producing properties and has not derived any revenues from the sale of gold, silver or other materials in the last three financial years.

The Company's mineral exploration activities have been funded through sales of common shares, and the Company expects that it will continue to be able to utilize this source of financing until it develops cash flow from its operations. There can be no assurance, however,

that the Company will be able to obtain required financing in the future on acceptable terms, or at all, and should this occur, there is substantial doubt about the ability of the Company to continue as a going concern. In the near term, the Company plans to continue its exploration activities on its currently held properties. Based on its existing working capital, the Company expects to require additional financing for its currently held properties during the upcoming fiscal year.

Management reviews annually the carrying value of the Company's interest in each mineral property and where necessary, properties are written down to the estimated recoverable amount determined on a non-discounted basis after giving effect to any property option agreements and cost recovery agreements. Costs relating to properties abandoned are written off when the decision to abandon is made.

While the Company has been successful in raising the necessary funds to finance its exploration activities to date, there can be no assurance that it will be able to continue to do so. If such funds are not available or cannot be obtained or are insufficient to cover the costs of the Company's mineral exploration activities, the Company will be forced to curtail its exploration activities to a level for which funding is available or can be obtained.

Other than as discussed herein, the Company is not aware of any trends, demands, commitments, events or uncertainties that may result in the Company's liquidity either materially increasing or decreasing at present or in the foreseeable future. Material increases or decreases in the Company's liquidity will be substantially determined by the success or failure of its exploration programs on its mineral exploration properties.

INVESTOR RELATIONS ACTIVITIES

The Company handles investor relations activities internally by assigning various duties to officers, directors and employees. These duties consist primarily of responding to enquiries from the Company's shareholders and the public, distribution of news and information about the Company and other developments in the resource industry, preparation for and attendance at industry conferences, maintenance of web sites on the Internet, increasing the Company's shareholder base and assisting in raising any capital which the Company might require.
